SUMMARY

My name is Vilayat Safarov. I am a software developer. I have been learning and working on my profession since 2020, when I started my undergraduate education at the university. I am very interested in joining new teams and improving my skills. During my internship, I completed more than 25 projects such as CRM, ERP, Delivery and corporate websites for companies and customers. I also worked on an open source application called Saleor for 5 months.

EXPERIENCE

PRODUCTION ASSISTANT / FREELANCE DEVELOPER, 11/2023 - Current

Gutenberg

I work on custom products as a product assistant and frontend developer. Now my main responsibility is to create a brand website called CHAYKOFF MMC

FRONTEND INTERN, 11/2021 - 05/2022

KODAZE LLC

I've built different kinds of apps, like ones for deliveries, online shopping, and managing customer relationships. I used tools like React JS, Next JS, and Typescript to make them work. I also helped improve an open-source project called Saleor for my company.

- Building programs according to customer requirements
- Setting up the company's crm system
- Working on some open source projects (Saleor)
- Learning some new technologies

FRONTEND INTERN, 01/2021 - 09/2021

ITEM ACADEMY

I've been building websites using tools like Tailwind CSS, HTML, and Javascript. I've tackled over 5 projects so far, which means I'm comfortable turning designs and ideas into real functioning websites.

- Creation of some programs for internal systems
- Work with teamwork system
- Preparation of some projects as an intern
